

Reasons to support Escondido Arts Partnership

The EAP receives the majority of its operating funds from corporate sponsors and individual donors and, for less than a daily cup of coffee, you too can support art education and art programming in the EAP for San Diego County.

Your donation will provide us with the opportunity to continue running our local community arts space that draws over 18,000 visitors to Escondido annually. This space documents and supports local artists working in all types of medium. You will support innovative and quality art programs such as the ***Emerging Artist-High School Student Show***, ***Art Connections***, and the ***Recycled Materials Runway Event***. Your contribution allows us to present free monthly exhibitions to the community with a dynamic showcase of local artists, designers, and woodworkers.

The EAP is a 501(c)(3) non-profit arts organization in Escondido, California. We strive to create a collaborative environment where Southern California's art and artists can prosper. The EAP nurtures a community of artists with opportunities for ongoing arts education, peer and public interactions, exhibitions, and performance space. Furthermore, the EAP's mission is to enhance the quality of life in the Southern California region through offering diverse artistic, educational, social and entertainment experiences.

Our organization is truly an exciting and constantly evolving space. We look forward to all of the future artistic endeavors and accomplishments created here at the Escondido Arts Partnership. Thank you for supporting our organization.
