

Reasons to support the Escondido Arts Partnership

Together we can fulfill the Escondido Arts Partnership's mission of connecting people with art. The EAP relies on the generosity and support of patrons such as yourself to provide innovative arts programs to the public. We aim to resonate with the members of our community and engage our new and underserved neighbors regularly. We are fortunate to have such amazing members, artists, volunteers and sponsors who believe in the mission of making these free offerings of art shows, poetry events, teen internships, workshops, and more.

Thank you for being an important part of these free art programs and for your interest in contributing to further the EAP's purpose of passing on inspiration. We hope that you visit often and continue living with art.
